

Environmental Policy

Cable Force is a civil construction and electrical contracting business and is committed to protecting the environment through the prevention of pollution and effective environmental management of all of our activities. To ensure that continual improvement of our environmental management is achieved we will establish and review measurable objectives and targets in relation to our significant environmental impacts and shall comply with all applicable legal and other requirements.

Our Commitment to effective environmental management will be demonstrated by:

- Activities being conducted in a manner that minimises any negative impacts on the environment.
- Reduction of waste through innovative work and recycling practise.
- The continual review of technological options to improve environmental performance and prevent pollution.
- Communicating openly with all stakeholders on environmental issues.
- Ensuring that our suppliers and contractors follow acceptable environmental practices.
- Protect the environment and prevent pollution.
- Meeting the requirements of ISO 14001.

Management are responsible for:

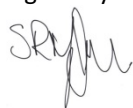

- Encouraging consultation and cooperation between management, employees and stakeholders in matters which may affect or impact on the environment.
- Involvement in the development, promotion and implementation of environmental policies and procedures.
- Training personnel in the environmental management aspects and impacts of their assigned tasks.
- The provision of resources to meet the environmental commitments.

All employees and contractors must:

- Comply with all environmental policies, procedures and written instructions.
- Report all hazards that may affect the health and well-being of the environment to their immediate manager, supervisor or representative.
- Work and cooperate with management and the Company in meeting statutory requirements.

This policy is applicable to Cable Force in all its locations, activities and functions including those situations where employees are required to work off-site where Cable Force may also adopt any additional requirements of the responsible authorities for such sites.
